

As I promised, here is the list of 7 Resources to Win at World of Warcraft that you need.

Keep in mind; there I have over 200 pages of gold tips in my book ["Gold Secrets Guide"](#).

Here's one that hopefully won't get the all gold-sellers too angry at me...

7 Resources to help you succeed!

1. The Auctioneer's Resource: This add-on alone has easily made me **more than 20,293 gold.** Want to learn its secrets? These techniques and strategies are so deadly simple- but they continue to work day after day, week after week. Your competition won't know what hit them when you put this into action. (you can use this even at level 1 starting with just a handful of silver!)

2. The Profit Chart: Absolutely the best areas for gold, loot, materials, and rare materials. All levels from 10-70 are covered in this easy to read, **totally original** chart. Need some quick cash? Here's your guide...

Don't go treasure hunting without it!

3. FREE Lifetime Upgrades: World of Warcraft changes rapidly. With free lifetime updates you can be sure that the guide you get today is still good for the next patch. Don't join other sites that ask you to pay each month for updates, because they're free here. You will be notified by e-mail when there is an updated guide available and you will have instant access. Your guide updates are all **100% FREE** for the life of the guide.
